

Working with Matlab

1. In the classrooms of the Institute of Mathematics, Mechanics and Computer Science you can work with Matlab through SFedu Applications (Приложения ЮФУ) or use Matlab Online in the browser (**with vpn**). Get access to Remote applications here <https://rdf01.sfedu.ru/RDWeb/Pages/en-US/login.aspx?ReturnUrl=/RDWeb/Pages/en-US/Default.aspx> or from your sfedu email box. Sign in with sfedu email and password.
2. Please register on Matlab official website mathworks.com (using you SFedU email to create an account). After the registration on Matlab website, you will have access to Matlab Drive. **If you use vpn** with location not from Russia, then you can also benefit from the trial-versions of Matlab, and Matlab Online courses <https://matlabacademy.mathworks.com/> Also, you will be able to use Matlab online for free up to 20 hours every month (Matlab in the browser, use vpn) <https://matlab.mathworks.com/>
3. To save your work in the classroom and then continue at home and vice versa, it is recommended to use cloud storage services, like Matlab Drive from MathWorks and One Drive from Microsoft:
 - 1) Matlab Drive is available in Matlab online and in the desktop application as well https://www.mathworks.com/products/matlab-drive.html?s_tid=matlab_drive_fx_redirect. You can enable MATLAB Drive on your desktop by installing MATLAB Drive Connector <https://www.mathworks.com/help/matlabdrive/ug/install-matlab-drive.html>
 - 2) One Drive from Microsoft. Using your SFedU account, you can benefit from the cloud storage in One Drive (while it is accessible). <https://www.microsoft.com/en-us/microsoft-365/onedrive/online-cloud-storage> Using, SFedU authorization, you can get access to your files stored in OneDrive in every classroom of Southern Federal University.
