

Practical assignment №1
Static deformation of a piezoceramic transducer with multi-electrode coating

KEYWORDS

1. Problem of electroelasticity (coupled piezoelectric analysis)
2. Static analysis
3. Plane problem

PROBLEM DESCRIPTION

See book “Finite Element Modeling of Coupled Problems”, Practical assignment No 1, pp. 103-132.

Table 1. Suggestions for individual assignments.

Variant No.	Student's name
1	Текучева Татьяна Дмитриевна
2	Олейник Михаил Александрович
