

## Working with Matlab

1. In the classrooms of the Institute of Mathematics, Mechanics and Computer Science you can work with Matlab through SFedu Applications (Приложения ЮФУ) or use Matlab Online in the browser.
2. Please register on Matlab official website [mathworks.com](https://mathworks.com) (using you SFedU email to create an account). After the registration on Matlab website, you will have access to Matlab Drive, trial-versions of Matlab, and Matlab Online courses <https://matlabacademy.mathworks.com/> Also, you will be able to use Matlab online for free up to 20 hours every month (Matlab in the browser) <https://matlab.mathworks.com/>
3. In order to save your work in the classroom and then continue at home and vice versa, it is recommended to use cloud storage services, like Matlab Drive from MathWorks and One Drive from Microsoft:
  - 1) Matlab Drive is available in Matlab online and in the desktop application as well [https://www.mathworks.com/products/matlab-drive.html?s\\_tid=matlab\\_drive\\_fx\\_redirect](https://www.mathworks.com/products/matlab-drive.html?s_tid=matlab_drive_fx_redirect). You can enable MATLAB Drive on your desktop by installing MATLAB Drive Connector <https://www.mathworks.com/help/matlabdrive/ug/install-matlab-drive.html>
  - 2) One Drive from Microsoft. Using your SFedU account, you can benefit from 1 Tb of cloud storage in One Drive. <https://www.microsoft.com/en-us/microsoft-365/onedrive/online-cloud-storage> Using, SFedU authorization, you can get access to your files stored in OneDrive in every classroom of Southern Federal University.
